Location: Belgrade and Ćuprija, Serbia

You will be part of the team working on the next generation gaming solutions for a leading hardware manufacturer.

The ideal candidate will have the following skills and background:

- M.Sc. or equivalent degree in Computer Science, Electrical Engineering or Mathematics
- 4+ years of hands-on experience with Swift / Objective-C
- 4+ years of hands-on experience with OSX, Xcode, Cocoa Touch, Core Data, GDC
- Experience with GRPC framework
- Experience with voice command applications
- Experience with Git and GitHub
- Experience with iOS network programming
- Experience in all phases of software development cycle
- Highly motivated and dynamic self starter
- Fluent in English, with excellent interpersonal and communication skills, able to conduct face to face and over the phone meetings with customer representatives and other team members

The following skills will be a plus:

- C++
- Android development
- Java
- Experience with Alexa, Google Assistant, Cortana and Siri smart speakers
- Video streaming technologies and SDKs
- Windows 10 development (GUI, networking and device driver calls)

Your key responsibilities:

- Help in formalizing user requirements
- Setup iOS development environment under OSX
- Propose design for a solution
- Coding, unit and integration testing and documenting the source code
- Help in preparation of user manual

We offer:

- Unique chance to join a rapidly expanding company offering fantastic career and skills development opportunities
- Permanent employment and an exceptional salary
- Private health insurance for all family members
- Opportunity to develop soft skills through series of training
- Opportunity to be involved in many sports activities with colleagues
- Opportunity to travel abroad and work on our clients' sites
- Working in young and enthusiastic team
