

Senior Front-end developer

Gi Group HR Solutions d.o.o. was established in Serbia in April 2002 with the mission to support clients in achieving their business strategy by offering a wide knowledge of the local market, experience of our international consultants, and tried and tested practices of our partners.

Gi Group HR Solutions d.o.o. as a leader in the region and part of Gi Group, prestigious and one of the leading consulting companies in the field of human resources, is able to offer comprehensive solutions in all areas of human resources management. We provide recruitment and selection services under our new brand Wyser.

On behalf of our client, an international company, we are looking for an experienced IT professional to fill in the position of the Senior Front-end developer .

We are looking for a great programmer who mostly likes working on front-end, giving life to great designs and improving user experience of web applications.

Job description

- Develop dynamic pages according to both designs and static web pages provided by designer
 - Assist in PSD2HTML phase of design
 - Integrate static html/css pages into the application
 - Write necessary controller code
- Continuously refactor and optimize the front end code
- Work closely with UI designer in order to develop user experience by drafting and implementing changes to current screen-flows
- Define, write and conduct cross-browser tests for all features
- Document implemented features

Desired Skills and Experience

- At least 3 years experience in development of commercial applications or sites
- At least 1 year experience in Java based Web application development
- Experience with *Play* Framework
- Excellent knowledge of HTML5 and CSS3
- Familiarity with object-oriented css frameworks and JavaScript design patterns would be considered as an advantage
- Familiarity with Photoshop or similar software

Company offers possibility to work in a dynamic, inquisitive and diverse team with a strong entrepreneurial spirit and a passion for developing innovative, technology-driven products. In the same time takes pride in providing high-quality and transparent services, which continually improves and adapts. Strives to foster full-time, long-term employment relationships, which compensates with competitive salaries and benefits.
