

Mobile App Developer

Aspire Technology is an innovative Irish R&D and Professional Services company, with a core competence in Mobile Telecommunications. Our customers include Tier-1 mobile operators and the world's leading suppliers of telecommunications products and services. Due to an increase in business, we are actively recruiting experienced developer for our product development team in Belgrade, Aspire Technology Limited Branch Belgrade.

The product will be implemented in corporation with a partner company **Endeavour Technology**, headquartered in Dublin, Ireland. Endeavour Technology is a product development company that creates innovative cloud based solutions for Mobile Carriers. The flagship solution (nSpire platform) is a composition of cloud based OSS applications which is complemented with a mobile device self care apps.

The app is a Self Care App that offers VIPS and Corporates diamond level support, and also captures detailed information on the quality of service, network quality and customer experience indicators.

This is an early stage project so it is exciting opportunity for Mobile Developer to significantly influence the product design and product strategy.
