

Telecommunications & Embedded Systems Operations

Internship Software Engineer - Java

Company Description

TESO is an innovative IT solutions company committed to helping customers around the world to transform their cutting edge ideas into real products. As a provider of information and communications technology, TESO is a reliable partner in hardware, mechanical and software design. Company's expertise lies in high speed professional video solutions, embedded multimedia signage systems, low power IoT products, cyber security and blockchain.

Our team of experienced engineers and product development experts has respectable know-how which covers a wide scope of technologies and approaches, so clients can be offered optimal solutions for any technology challenge they want to solve.

We are the place where a customer comes with a dream of a project, and we help that dream come true!

As an employer, we cherish the work atmosphere where people selflessly share knowledge and ideas. We want everyone's voice to be heard, and believe that is the only way to move forward. For us, hierarchy exists to help projects happen, not to create artificial boundaries or limit anyone's space for growth.

We want our employees to grow and lead within the TESO team.

About project and team

TESO team is in charge of the development of the latest state of art cyber security solutions for an international client. The team is multi-cultural and seated in several locations in Europe (Germany, UK and Serbia).

Job Description
